**Name of Company**

Caution Coffee and Supply

**Current Logo of the Company**

**Created Logo for the Company**

**CAUT!ON COFFEE**

## **Type of logo: Combination Mark**

This logotype is a combination of a font-based logo along with a symbol (letter i) that focuses on the business name, Caution Coffee. We made use of this style as it helps create a strong brand recognition for the chosen business. Also, it focuses more on directness and can easily grab the attention of the customers.

### **Color used:**

Old Gold: #D4AF37

Beige: #F4F4DC

### **Font style used:**

TAN Harmoni

### **Symbols used:**

We used its original logo element, particularly the exclamation, incorporating the original idea of the logo. The exclamation point was then changed into a coffee cup which symbolizes what the business was about, which is a coffee and supply business.

### **Indicate logo dimension:**

**3347 x 993 (rendered png)**

**168.52 x 50 (on website)**

### **How did you come up with the design of the logo:**

The idea of the recreated logo was to extract the original logo's idea and its usage of elements. We wanted to shift to using a combination of a symbol and wordmark type of logo to make the title of the business pop and make use of a readable font for simplicity. The symbols, which are the exclamation point and coffee cup, were purely the elements used in the first logo. Essentially, we made sure that the very concept of the original logo was still featured and incorporated in the revised logo. Therefore, making the connection and relevance present in the new one.

**How We Started**

*Our story*

**Before 2020**

Two coffee enthusiasts are on their journey to start their dream business. They seek local and unique coffee beans to create the perfect tasting coffee and get it right.

**2020**

After reading how fast businesses can begin with e-commerce, they took the leap and opened their first online store. They were excited to start selling their coffee beans and received a positive response from customers who appreciated their unique coffee beans.

**2022**

They were surprised by the fast growth of their online store and decided to open a physical store. They wanted to provide a space where people could come in and taste their coffee beans before buying them online.

**2022 to Present**

The small online store that started selling coffee beans online now has a physical store. They appreciate its love for coffee and continue to meet the needs of its customers by providing a great tasting coffee.
